Attachment to form PTO-90C

The amendment to the claims filed on March 08, 2004 does not comply with the requirements of 37 CFR 1.121(c).

Applicant submits a copy of the claims filed on September 19, 2003 as an evidence that at the time of filing claim 25 was present among claims 21-32, therefore, it should have been included in the examination (bottom at page 4 of the Response). However, the original copy of claims submitted on September 19, 2003 entered and currently present on file in the instant application clearly indicates the omission of claim 25. Because claim 25 was not present among the claims submitted in the amendment of September 19, 2003, the numbering of the claims was found to be not in compliance with 37 CFR 1.126 (see reasons of record in section 2 of Paper mailed on December 08, 2003). Thus, misnumbered claims 21-24 and 26-32 have been renumbered as 21-31.

The amendment to the claims filed on March 08, 2004 maintains the original numbering of the claims, which includes the allegedly originally presented claim 25. Applicant is advised that the current proposed amendment is not entered because it clearly does not correspond to the previous version of claims 21-31.

Amendments to the claims filed after March 1, 2001 must comply with 37 CFR 1.121(c) which states:

(c) Claims.

(1) Amendment by rewriting, directions to cancel or add: Amendments to a claim must be made by rewriting such claim with all changes (e.g., additions, deletions, modifications) included. The rewriting of a claim (with the same number) will be construed as directing the cancellation of the previous version of that claim. A claim may also be canceled by an instruction.

(i) A rewritten or newly added claim must be in clean form, that is, without markings to indicate the changes that have been made. A parenthetical expression should follow the claim number indicating the status of the claim as amended or newly added (e.g., "amended," "twice amended," or "new").

(ii) If a claim is amended by rewriting such claim with the same number, the amendment must be accompanied by another version of the rewritten claim, on one or more pages separate from the amendment, marked up to show all the changes relative to the previous version of that claim. A parenthetical expression should follow the claim number indicating the status of the claim, e.g., "amended," "twice amended," etc. The parenthetical expression "amended," "twice amended," etc. should be the same for both the clean version of the claim under paragraph (c)(1)(i) of this section and the marked up version under this paragraph. The changes may be shown by brackets (for deleted matter) or underlining (for added matter), or by any equivalent marking system. A marked up version does not have to be supplied for an added claim or a canceled claim as it is sufficient to state that a particular claim has been added, or canceled.

(2) A claim canceled by amendment (deleted in its entirety) may be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

Since the reply filed on March 08, 2004 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
